## BOOK CLUB REVIEW JUNE 2016.

### **The Hundred-Year-Old Man Who Climbed Out of the Window and Disappeared**

by Jonas Jonasson, It all starts on the one-hundredth birthday of Allan Karlsson. Sitting quietly in his room in an old people's home,

he is waiting for the party he-never-wanted-anyway to begin. The Mayor is going to be there. The press is going to be there. But, as it turns out, Allan is not... Slowly but surely Allan climbs out of his bedroom window, into the flowerbed (in his slippers) and makes his getaway. And so begins his picaresque and unlikely journey involving criminals, several murders, a suitcase full of cash, and incompetent police. As his escapades unfold, we learn something of Allan's earlier life in which – remarkably – he helped to make the atom bomb, became friends with American presidents, Russian tyrants, and Chinese leaders, and was a participant behind the scenes in many key events of the twentieth century. Already a huge bestseller across Europe, *The Hundred-Year-Old Man Who Climbed Out of the Window and Disappeared* is a fun and feel-good book for all ages. This book was Judy Major's choice, so on Monday night 5 of us braved the slippery roads and headed for her place. For the first time we didn't get lost getting to the house. We spent the first half hour catching up and then got into the serious business of discussing the book. Firstly we rehashed the Dressmaker as a couple of us had watched the movie since reading the book.

Of the six present three had read the entire book one actually enjoyed it and found it funny. One member gave up as she thought it too silly for words. The other two were  $\frac{3}{4}$  way through. I personally found it a hard slog and very silly everybody agreed it was a hard read. I thought it hadn't translated well. To discuss the book took quite a while as we kept getting side tracked and branching out into much more interesting topics. We all really enjoy coming to book club because you get a different perspective getting other people's point of view.

We all really enjoyed the evening and thank Judy for a great night. So if you enjoy reading and a fun evening please feel free to join us.

Our next meeting will be at Leanne Stanich's on the 11<sup>th</sup> July at 8 p.m.

If you would like more information on the Book Club please contact Gail Vaux 0429026110.

**SHIRE OF GNOWANGERUP**

## **Gnowangerup News**

### **SHIRE PRESIDENTS REPORT**

Council business for May was very varied. Council was able to support expressions of intent for business expansion with two agenda items; these items are always very encouraging in terms of community benefit. The proposed sale of land resulting from the successful planning department endorsement of lot 556 Structure Plan continues the development of the old water corp site into a valued business location.

In terms of community assets, two items were raised at very different ends of the spectrum. The pool project reached the exciting contractual milestone of practical completion on Friday 13 May 2016 and the landscaping of the pool surrounds will commence in mid June.

Obsolete television transmission towers were approved for disposal and may create an opportunity for someone to reshape & utilise old assets. The other significant item was the endorsement of the 2016/17 firebreak order; this will be included with rate notices in the usual manner. Congratulations and thank you to all brigade members on their appointments in the necessary roles for the year.

The Shire also conducted a business forum in May, guest speakers included representatives from Western Power, LandCorp, the Great Southern Development Commission and Water Corp. It was pleasing to have a great range of businesses attend from across the shire, and we hope all were able to take something away from the morning. I believe the organisations that presented appreciated the feed back received. Amongst many issues raised, two points of interest were regarding the future of remote power provision, and waste water treatment management.

Works are currently being undertaken to repair the road network damaged by the storm on the 20th January. Due to the extent of the damage it is likely that these works will take between 12–18 months to complete. Although it is an inconvenience to rate payers the shire will benefit from having a renewed asset largely funded through grants and which will not require renewal for some time.

### Invest in Plant Testing.

Plants can tell us what's happening with nutrient supply from the soil.

But in some seasons it's difficult because of poor growth (waterlogging, drought, chemical damage) In a good season, rapid growth places demand on nutrients such as copper, manganese and potash. So this year is a great year to plant test and get a true indication of your nutrient status and back up what we've learnt from soil tests.

Call me and we can work out a time.
