## Community Notices

Condolences to the Curtin family on the loss of their much loved wife, mother and grandmother Judy. Judy and Norm settled in North Ongerup in the sixties and raised their family of six children. They were great supporters of the school and community during their time in Ongerup. Judy will be much missed.

**THANK YOU** Big thank you to all the helpers - food, kitchen, speeches, cake, bar, slideshow and just coming along to Graeme & Margaret's farewell last Sunday to appreciate their contribution to Ongerup over the years. No doubt we will be seeing them quite often around the place still!

**ONGERUP LIBRARY** will be closed until the 31st October while it is being re set up at Yongergnow. Watch this space for our official opening party. **TENNIS LESSONS** Glynn Thompson is interested in coming to Ongerup every 2<sup>nd</sup> Wednesday from 17<sup>th</sup> Oct to do tennis lessons for adults and children from 5 years old onwards. Please contact the CRC if this is something you would be interested in or for more information.

### Notice of Christmas Closure

Yongergnow—Ongerup CRC will be closed from 4pm Saturday 22nd of December and will reopen 9am Wednesday 2nd January 2019.

Thank you.

Yongergnow-Ongerup CRC Staff & Management Committee.

YONGERGNOW MALLEEFOWL CENTRE,  
JAEKEL ST, ONGERUP

# Malleefowl Monitor Training

Monitoring Malleefowl will not in itself save them, but it is an extremely important tool in understanding how the species is going. If there was a sudden crash in any population, we need to be aware of the situation ASAP. Annual monitoring is also essential if we are to understand long-term trends that may vary due to many factors including climate change.

Malleefowl exist right across Australia so we need to ensure everyone is monitoring in the same way. Over many years we have developed a method of monitoring Malleefowl that doesn't upset the birds, doesn't place more demands on the people doing the work than necessary and is scientifically robust.

We have developed a system that uses modern technology and is easy to use. Volunteers are supplied with smartphones with our own monitoring app installed.

At the training, we will show you how to use the equipment and then travel to a site where we will visit several mounds and go through the monitoring methodology.

Apart from learning how to take part in this important Citizen Science project, you will be mixing with lots of very knowledgeable Malleefowl people.

Saturday 10th  
9.00 am

Yongergnow Malleefowl Centre  
Jaekel St, Ongerup.

- Will have a short introduction and inductions
- Everyone gets to play with the app on our smartphones and learn how we use them in the field
- We will use GPS to navigate to Malleefowl mounds to record the data for each round
- At the mounds we will practice the best monitoring methods and how to use the smartphones

Sunday 11th

- For those that get bitten by the monitoring bug we will be going to other sites to continue monitoring

Note that we will be walking through sometimes heavy bush. Ensure that you have good walking shoes and clothing to protect yourself from scratching and sun....sounds fun doesn't it?
