Wildfire
oil on canvas, found objects and scrap metal

The Stirling Ranges bushfires near my home inspired me to create a multi-media work with environmental commentary. The malleefowl, outlined in the fire, is a symbol for endangered species. The non-indigenous fox and the bushfire symbolise the threats to the native flora and fauna. The sculpture is made from bits of scrap metal I found around my home property. The outline of fire around the malleefowl was inspired by Australian artist, Tim Storrier. The sculptural component was influenced by a variety of artists, as well as my own welding and repairs experience which I have learnt on my home property.

LITTLE LEARNERS RE-LOCATION PROJECT

The childcare project is making amazing progress. In recent weeks, there have been lots of tradies working on the site transforming the old hockey change rooms into a fabulous new space for our little ones. Although we are getting close to finishing the project, further work will still need to be completed by the committee/community.

Congratulations to the hard working committee who have made this project a reality and created a lovely space for our present and future little ones to enjoy.

EFFECTIVE GOVERNANCE

A PRACTICAL GUIDE

Members of management committees/boards have a rewarding but challenging role. Governance can be dry and daunting, when the focus is merely on compliance and risk. But effective governance is an exciting opportunity to lead an organisation through creativity, unity, and vision. This session will focus on how an effective committee works, and key roles and responsibilities.

This session will cover:

- What is a management committee and how does it work?
- What are the principles of good governance?
- What are the main roles and responsibilities of a management committee?
