## Single-use plastic cups for cold drinks banned from 1 October

The sale or supply of single-use plastic cold beverage cups has been banned from 1 October 2022. The move completes the first stage of Western Australia's Plan for Plastics, with the State leading the nation.

The bans will save 430 million single-use plastics from landfill or litter in WA each year, with cold cups accounting for more than 40 per cent.

Nine items have been phased out as part of WA's Plan for Plastics first stage since July, including plates, cutlery, drink stirrers, drinking straws, thick plastic bags, expanded polystyrene food containers, helium balloon releases and unlidded containers.

The Stage 1 bans are estimated to eliminate large amounts of single-use plastics every year, including 300 million plastic straws, 50 million pieces of plastic cutlery and more than 110 million thick plastic shopping bags.

The State Government is urging businesses to make the switch, and will continue to use a common-sense, education-first approach to enforcing the ban. Businesses or community groups needing support can visit <http://www.plasticsbanwa.com.au>

People that require single-use plastic items to maintain their quality of life, such as those in the disability, aged care, and health sectors, will be ensured a continued supply.

Single-use plastic takeaway coffee cups and single use plastic produce bags among other plastic products will be targeted in the next stage, which will be introduced from February 2023. Disposable options will also still exist, with certified compostable cups and lids excluded from the ban and already widely used by businesses.

Transition timeframes for Stage 2 banned products, including single-use plastic coffee cups,

will be determined through consultation. To have your say,

visit <http://www.wa.gov.au/planforplastics> by 18 November 2022.

In support of the move to ban single use plastics, a limited number of free reusable vegetable bags are available from the office of Shelley Payne MLC, 92 Dempster Street Esperance.

Comments Attributed to Member for the Agricultural Region Hon Shelley Payne MLC

"The recent ban of single use plastic cups will save around 180 million of these from going to landfill each year. This is great for our environment" she said.

"With stage two bans set to come into place in early 2023, I encourage residents of the Agricultural region to have their say on the transition period".

"In the fight against single use plastic, I am giving away free reusable vegetable bags to constituents. Pop into my office at 92 Dempster Street Esperance to collect some or call my office on 9072 1786 and I will post some out."
