We Are Not The Same – Is It Embedded In Our Masculinity?

BY THE REGIONAL MEN'S HEALTH INITIATIVE
April 2023

Quite often as blokes we have been told to get in touch with our feminine side. Over time this narrative has been part of the language barrier that has put bloke's positive approaches to wellbeing issues and help seeking in reverse.

There are three parts to our health: physical, mental and social/spiritual wellbeing. The latter is where we find: our identity, our individuality, our own sense of self, our sense of belonging, our passions and interests and our emotional context (not a feminine side!)

We are the same species but putting it simply men and women have evolved differently. Our DNA is 99.6% similar but it is that 0.4% difference that we need to talk about and address, because it helps explain why blokes have a warrior attitude to life and in turn helps explain why we seek help differently.

There are three main areas of difference that we talk about in the work we do:

- 1. Communication**
 - On average blokes will talk one third less than ladies per day (7,000 words to 21,000 words) this starts from a young age from boys through to men. Anyone with a wife, mother, mother-in-law, daughter, or partner will know this. Ladies, talking is a good thing as it helps address/highlight a whole lot of issues.
 - It is perfectly normal for blokes to talk in dot points or even just grunt!
- 2. Risk-taking**
 - Blokes are hard wired to take risks from an early age. Some of this is linked to our brain development. The brain development stage for a lady is roughly between the ages of 18 to 20 years, whereas for a bloke it is between the ages of 25 to 28 years (some may say 45 to 50 years!)
 - As we get older, we get wiser, but we are still hard wired to take risks.
- 3. Winning (an important part of the warrior culture)**
 - The majority (90%) of Aussie men think winning is important (a trait that can be traced back to our true warrior days, hunting for survival);
 - An alarming statistic is that 50% of blokes think winning is all that matters. So quite often blokes don't take a backward step when it comes to finances, relationships and/or business matters.

The importance blokes place on winning, explains why a loss event and/or a sense of loss becomes problematic and can be hard to deal with. Combine this with the lack of understanding of our emotions and we may be a ticking time bomb.

As blokes we need to be more aware of our emotions and that it is alright to show them. We will all experience emotional issues throughout our lives. During these times we should openly express our emotions maybe through a hug or a cry and/or use language that is foreign to us i.e. I am sad, and/or I am struggling here.

Talk to a Mate!!! It is beneficial, and you will realise that it's not just you that may be struggling, there's a lot of other blokes out there feeling the same way.

**Remember... before it all gets too much...
Talk to a Mate!!!**

- Childcare Fee Discount

Application should be emailed to
the Director
director@gfsa.org.au
08 9827 1454

CLOSING DATE:
MARCH 29, 2023

April is a great time for farmers to plan how they will control foxes, rabbits and feral cats in the year ahead.

The most effective strategy for each species is to integrate appropriate control methods. One method for fox control is 1080 poison baits. Farmers can look into applying for or amending Registered Pesticide (RP) permits now to be sure the permits are ready when they actually want to bait, especially for the late winter and spring period when fox baiting is most effective. A plan to bait for foxes or rabbits with 1080 poison requires RP training to safely handle and use 1080 (which can be done online) as well as a current RP permit which can take a few weeks to process. It is too late to bait once there are young lambs on the ground. DPIRD's website has more information on RP permits www.agric.wa.gov.au/baits-poisons/registered-pesticide-permits

North Stirlings Pallinup Natural Resources (NSPNR) with DPIRD and Fitzgerald Biosphere Group (FBG) will offer free RP training in July through NSPNR's project, Expanded predator control program in the Fitz-Stirling Corridor. Contact Laura (below) to register your interest.

NSPNR is also calling for Expressions of Interest for free fox baits supplied through the project for laying in summer/autumn 2024 see form

The Expanded predator control program in the Fitz-Stirling Corridor project aims to reduce numbers of feral cats, foxes and rabbits in the area between the Stirling Range and Fitzgerald River national parks. This will reduce pressure on native animals including malleefowl, chuditch and Carnaby's black cockatoo. The project is supported by funding from the Western Australian Government's State NRM Program.

The project has had a successful start to the year with the NSPNR – Yongergnow Feral Animal Tally and Community Breakfast which saw teams from across the Shire of Gnowangerup shoot 180 foxes, 8 cats and 41 rabbits. The winning team alone shot 37 foxes. A local farmer also brought in 5 foxes and a rabbit. Fitzgerald Biosphere Group (FBG), Bush Heritage Australia and the Wellstead Progress Association are also involved in delivering this project and have held events recently to raise awareness about foxes, rabbits and feral cats in the area and reduce their numbers.

Farmers in the region are encouraged to continue to put pressure on fox and rabbit populations with appropriate control methods such as 1080 baits and shooting and to desex their domestic cats. For more information contact Laura Page, Project Officer, laura@nspnr.com.au 0401 553 285.

FOX BAITING

Expression of Interest : Calling for Rural Property Owners / Managers / Lessees
in the Shire of Gnowangerup and neighbouring areas who may be interested in Fox Baiting
(including existing RP 1080 bait permit holders).

1080 Baits Devolved Grant Program

This project will **SUPPLY** the baits for the following baiting period on the condition that **YOU** lay them.
During Summer/Autumn 2024

To apply and participate in this project, fill in the box below and return this form to:

Laura Page laura@nspnr.com.au 0401 553 285 **Due: 15 April 2023**

Please fill in a separate form for each applicant type below

Applicant	Owner or Manager or Lessee	
	Postal Address:
