Ongerup primary School 75th birthday celebrations March 15th

ONGERUP BOWLS NOTES Our Bowls 2024 year ended with holding our club Pairs event. This included both Mens and Ladies. We had a good turn up with Barry Ashton & Craig Bamess as the winners then Jake & April Langdon the runners up. All this was followed by a nice Christmas Dinner evening. Now we're into the New Year starting with the club singles, it's congratulations to the Ladies Winner

Jade O'Neill and Robyn Hams Runner up. The men played on the same day with a Knock out event, it's congrats to Maurice O'Neill with Ernie Jaekel giving him a run for it. Maurice O'Neill, Jake Langdon and Barry Ashton being Ongerup reps in the League Men's team at ILRR in Esperance recently, and again it's congrats to Maurice for being picked to be part of the Zone team. Both Mens and Ladies are back into pennants again to finish off the year. Men played Borden last weekend, no-one seemed to want to fill me in on the score - so we won't discuss that one!! The Ladies had a very good win over Gnowangerup and now the Ladies play off in the Pennant finals on Sat 1st Feb. Then this weekend just gone we held our annual Mixed Triples event here in Ongerup. What a great turnout that was with all 8 rinks being filled. Teams from Emu Point, Jerramungup, Borden, Bremer Bay, Dumbleyung, & Gnowangerup visiting. A huge thank you to all our members for your bit in holding this event, especially Robyn for such efficient catering organization, plus our very great bar staff & kitchen helpers in Marion, Nicole & Alyce. Those of us who wish to play on the day can't do this if you aren't there. A big thankyou to all our Sponsors of the day - once again, days like this can't be held without you.

ALOSCA granules provide flexibility like no other inoculant.

Unlike traditional inoculants which are limited in when they can be applied due to the mortality of the rhizobia, ALOSCA Granules can be sown into dry, unfavourable conditions and remain viable in the soil for months until being activated by the same seasonal rainfall that germinates the seed.

ALOSCA Granules at a glance:

- Can be dry sown
- Can be used with seed dressings that are typically harmful to other inoculants
- Simple to apply and can be blended with fertiliser, seed or applied by a third box
- Can be stored for extended periods
- No need for time consuming inoculant slurries to be applied during seeding
- May be applied in the season prior to growing legumes
- Australian owned and manufactured

Contact your local distributor and order now to go into the draw to win 1 of 3 YETI Coolers

For more information on how ALOSCA can benefit your operation, contact ALOSCA Technologies on (08) 6305 0123 or visit alosca.com.au

Order through your local distributor today and make sure to ask for ALOSCA granules.
